About us:

We aim to deliver high quality medical diagnostic services. Our goal is to provide patients with an update on their health status and help the clinicians reach the right diagnosis through our accurate and reliable reports.

Vision: To be the most trusted diagnostic laboratory enabling a healthier nation.

We at Rapid diagnostics are a team of Pathologists and Microbiologists along with Skilled & trained technicians. Our professional and skilled phlebotomist will collect the samples from your doorstep at your preferred time.

We offer you a wide range of services in Pathology, Biochemistry & Microbiology by using the latest automated technology along with reliable and gold standard methodologies. With Specialisation in various departments such as Microbiology, Serology and Hormone Profile testing. Our affordable packages cover a wide range of test parameters to take care of your overall health.
